01

Voice AI host that never puts you on hold

Reservations, waitlist, hours, allergens — answered in one ring.

THE PLAY

A friendly voice agent picks up every call, books directly into your reservation platform, manages the waitlist, and texts the guest a confirmation. No more 'we missed your call' voicemails during the dinner rush. It plugs straight into Google Calendar and your POS, drops new guests into Mailchimp, and pings the floor manager in Slack the moment a VIP is on the line.

02

Website & DM concierge

Menus, dietary questions, private events — instantly.

THE PLAY

A chatbot on your site and Instagram DMs handles menu deep-dives, gluten-free and vegan questions, gift cards, and private dining inquiries — and qualifies catering leads straight into your inbox. Qualified leads land in HubSpot, group-menu PDFs render through Canva, and Square gift cards close right inside the chat.

Local SEO, GEO & AEO that owns the neighborhood

Win the map pack, the AI answers, and TripAdvisor.

THE PLAY

We optimize your Google Business Profile, push menu and dish schema, claim and tune Yelp and TripAdvisor, and seed neighborhood content so ChatGPT and Google AI Overviews recommend you by name. Listings stay synced through Google Maps and Google Workspace, while Canva-built dish cards keep your Instagram grid on-brand.

THE PLAY

We record short-form audio with your chef or owner — origin stories, sourcing, the dishes behind the menu — then cut it into reels for Instagram and TikTok. Authentic content without the agency overhead. Episodes auto-publish to Spotify, transcripts route through Google Workspace, and Canva builds the cover art for each drop.

Agentic AI that runs the loyalty loop

POS -> email -> ads -> review request, end to end.

THE PLAY

Slack pings the GM on big-spender visits and QuickBooks Online sees the lifetime value climb in real time.
